Server for storing and transmitting data

1

Creation of a webbank by a user on server
(preferably via the Internet using a browser),
the server preferably being a central site
for all webbanks and being managed by
a central authority (such as a chartered bank),
with all transfers of information to or from
the server preferably being encrypted

1

Transmissions of information to and from the user's webbank,
the transmissions being conducted by the user, by third parties,
and/or by the central authority, such as: transmissions
transferring funds between the webbank and any other financial
source (e.g. another webbank, a traditional bank or other
financial institution, a credit card, wire transfer or cash payment
to the central authority, etc.) and transmissions regulating,
managing or programming the accounts, subaccounts,
funds or other assets, and so forth, on the webbank
